

PTX240 Protector

Introduction

Since 1980, Eaton Innovative Technology has provided Surge Protective Devices (SPDs) to power quality equipment users around the world. Whatever your electrical surge protection need may be, Eaton Innovative Technology has a Surge Protective Device to fill it!

General Features

- Peak Surge Current — 300 kA per phase; 150 kA per mode
- ANSI/IEEE C62.41 Location Categories — B and C
- Application — High Exposure Level, industrial applications including: large service entrances, large distribution panels, and large individual equipment disconnects.
- Warranty — 20-Year Free Replacement
- Agency Listings — Compliant to UL® 1449 3rd Edition* and UL 1283*
- Manufacturer Qualifications — ISO® 9001:1994 Quality System Certification BSI FM 30833

Mechanical and Electrical Features

- Enclosure — Powder Coated Steel, weatherproof; NEMA® Type 4 (IP66), meets or exceeds Type 12, 13 & 3R ratings
- Connection — All connections: box terminal #14-1/0 (2.5 – 50 mm²) wire size
- Weight — ≈30 lbs (14 kg)
- Operating Temperature — -40 to 185°F (-40 to 85°C)
- Protection Modes — All Mode L-N, L-L (normal mode), L-G, N-G (common mode)
- Input Power Frequency — 47– 420 Hz. All-SD option PTX units 47-64 Hz
- Response Time — ≤1 nanosecond

Note: Ideal for applications utilizing a ground fault circuit interrupting (GFCI) main breaker

- Diagnostics — LED indicators, 1 per phase, normally on
- Remote Alarm Form C (Volt Free) relay, contact rating 60 W, or 125 Vac @ 0.5 Amp, or 30 Vdc @ 1 Amp
- Overcurrent Protection Device Requirement — Reference installation instruction for details
- Nominal Discharge current* (I_n) = 20kA

Optional Features and Equipment

- Audible Alarm, Surge Counter and Phase Loss Monitor (S.M.A.R.T.) — (-SD suffix)
- Stainless Steel, Type 4X enclosure — (-SS suffix) (contact factory, minimum quantities apply)
- Fused — (-L suffix) (See the Eaton Web site for current field drawings)
- Fused Disconnect — (-D suffix) (See the Eaton web site for current field drawings)
- Integrated Circuit Breaker* (-C suffix)
- Integrated Circuit Breaker with External Disconnect* (-CD suffix)

* Available 1Q09
